Linemarking Removal

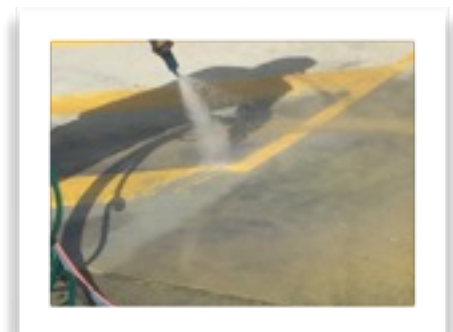

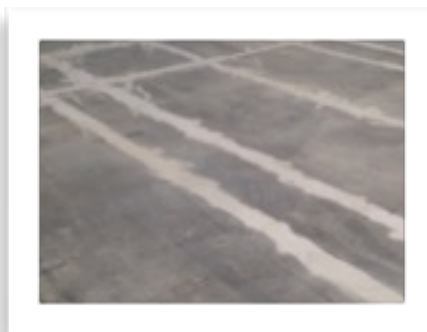

**Moving out of your current warehouse and need your lines removed?
Need your lines removed to reinstate new line-marking to Australian Standards?
Want to change your existing line-marking for safety reason?**

Don't just paint over them, have them professionally removed.

Weis Contractors can remove you current line-marking by means of **abrasive blasting**, **grinding** or **chemical removal**.

Weis Contractors has helped business's restore their warehouse floors at the end of tenancies, when the owner's have asked for the lines to be removed as part of the hand back. We assess each job to come up with the best method that leaves the least damage to the substrate. In most occasion this will be **wet abrasive blasting**. With this method we can regulate the air pressure and air flow reducing surface damage and reducing our Environmental Impact

No job to big or to small.
