

After Flood Treatment

Sanitation of walls

Thermal Fogging

Sand Sanitation

Over the years Weis Contractors has developed products and methods to help reduce the spread of some virus and bacteria. With the uses of our no rinse surface sanitiser, we are able to fog your dwelling with our product. This lets us improve your air quality by removing dust particles, helping to reduce air borne mould spores and leaves an active residue within your dwelling for up to 12 weeks. This product also helps reduce odours.

Our Organic range is NASAA Certified for Organic Input with all ingredients USA FDA GRAS listed. It has a broad spectrum natural anti bacteria action that can be used in a wide range of adaptations from the home to catering, food processing and preparation, water and wastewater treatment, hospitality, medical and agriculture. Features of our cleaning products include;

- Non-mutagenic, non-carcinogenic, non-toxic, non-corrosive, non-tainting, non-volatile
- Food contact safe and non-hazardous if it enters waterways
- Has extended action (residual effect)
- Has the ability to break down biofilm
- Retains its stability when exposed to light
- Low foaming
- Stable at pH levels from 2 to 12
- Stable at temperatures up to 60°C
- Effective even in the presence of organic matter
- Non-corrosive- does not attack metal and does not affect other

Our product can be used in a variety of different areas:

Road and Footpaths.
